File 1104

HQ-10 SHOW NAME, TITLE AND UNIT OF ADDRESSEE AND ADDRESSOR

TO: Sewage Treatment Cost Task Force

DATE: January 19, 1984

FROM: Sandy Silverstein

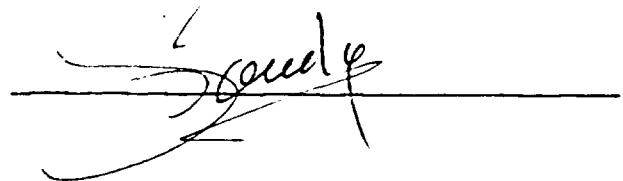

SUBJECT: Resource Data

Attached are charts showing 1983 figures for quantity and cost. In about a week you will receive the same charts for 1982.

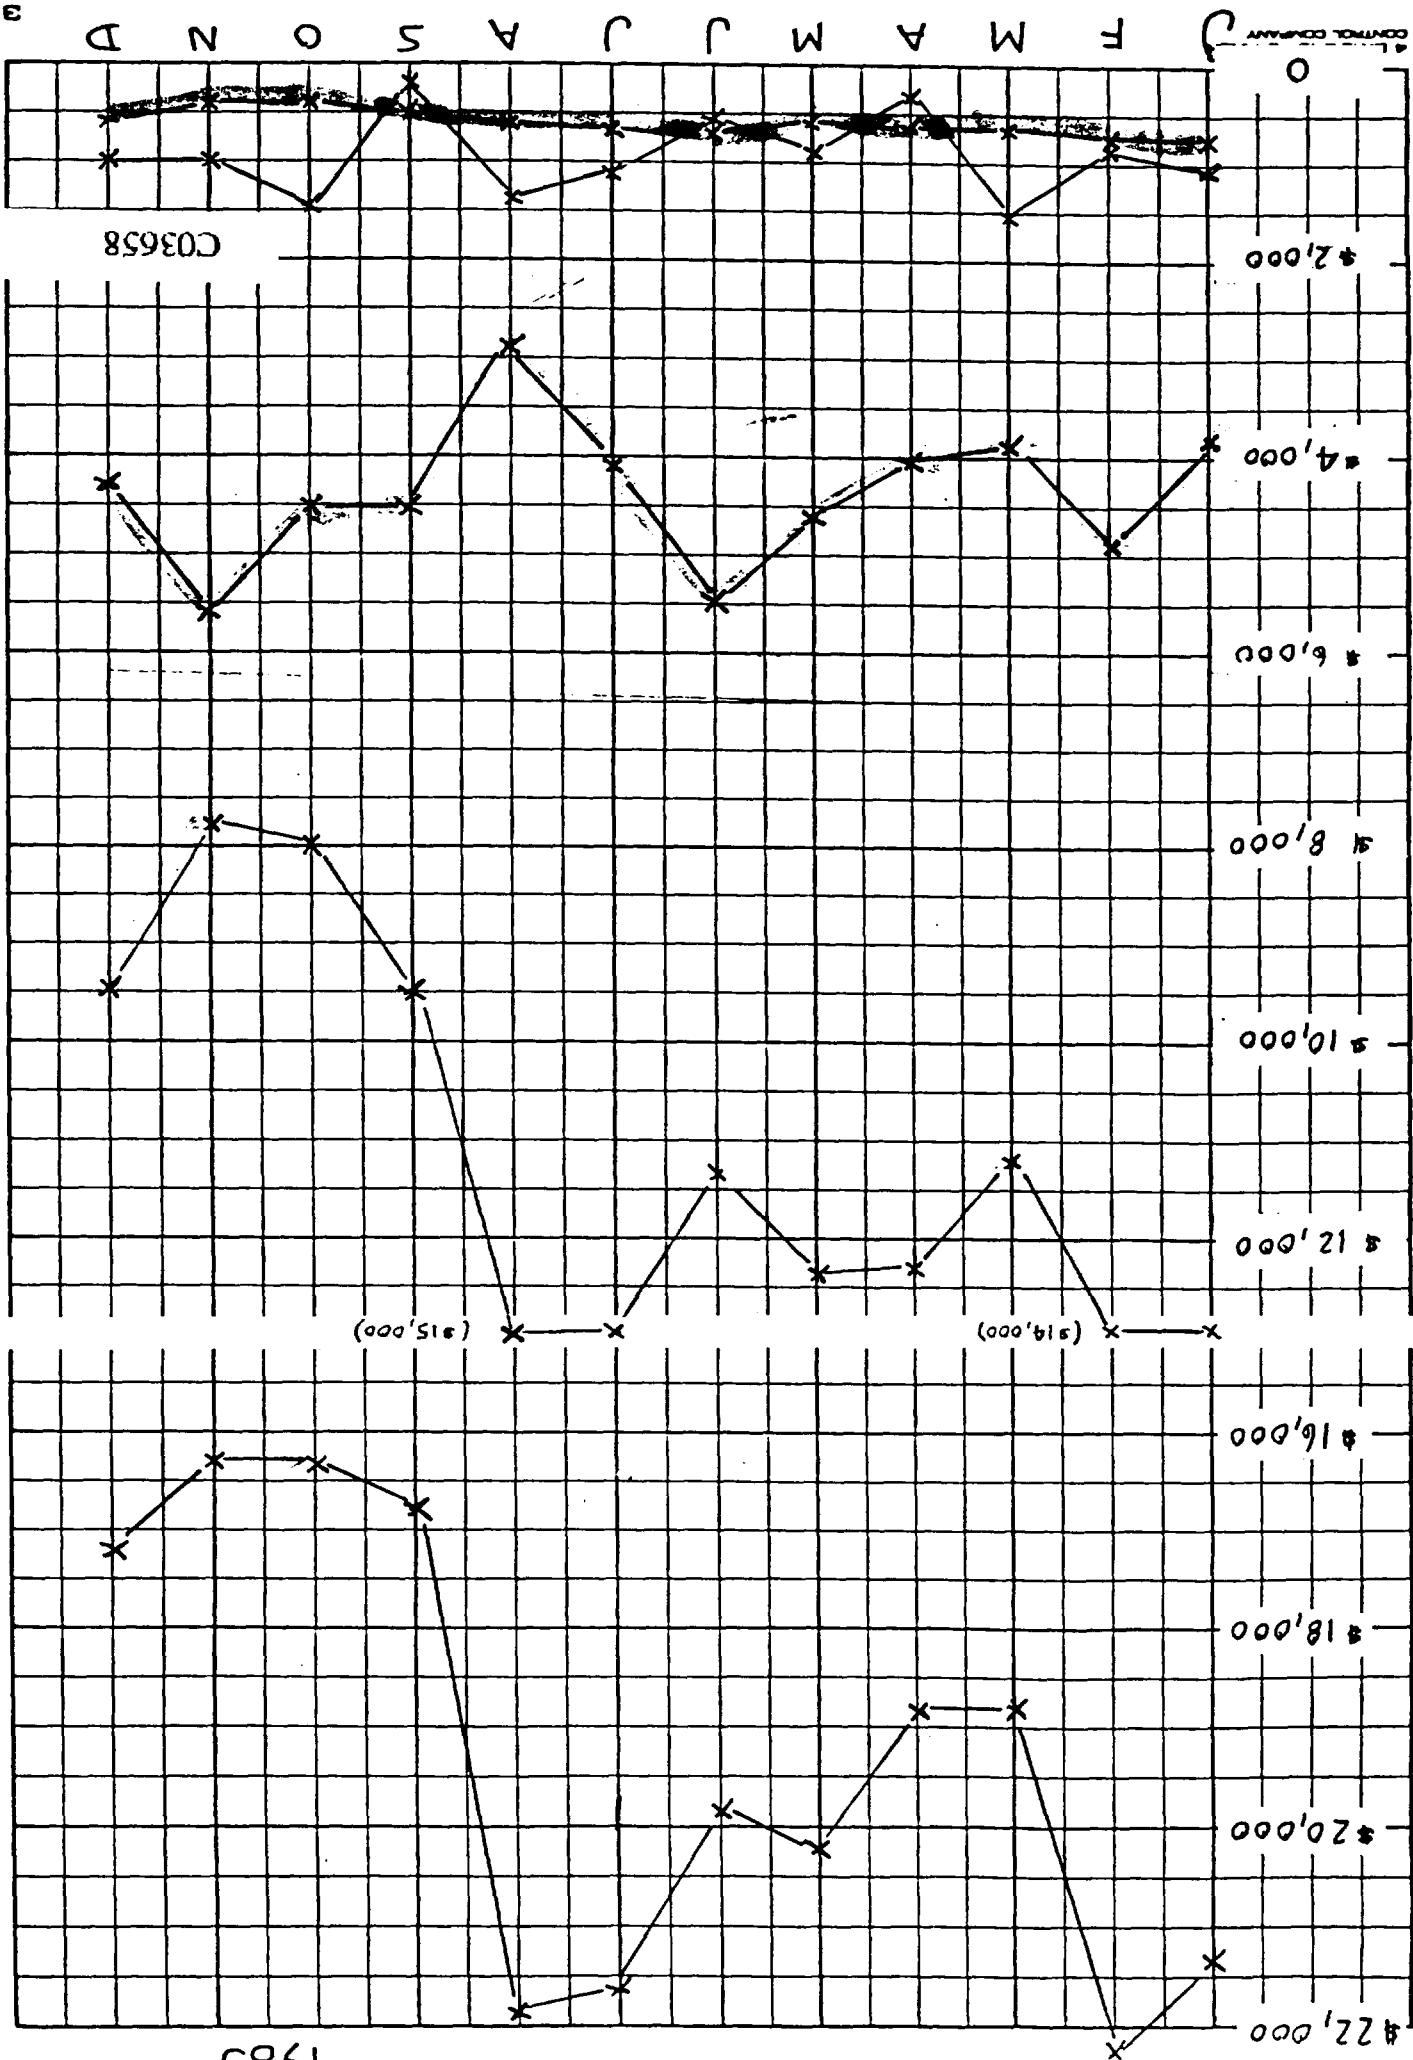

The quantity for acidity, expressed in pounds of lime, is not shown because we consistently run zero for the Cerro West discharge and less than one ton, usually less than 1,000 pounds, for the Cerro East discharge. If anyone feels that this data would be useful, the charts can easily be prepared.

If there is any other data that anyone thinks would be useful, either in tabular form or chart form, please advise.
